AIR LOGIC ANNOUNCES WYVERN RECOMMENDATION & ARG/US PLATINUM RATING

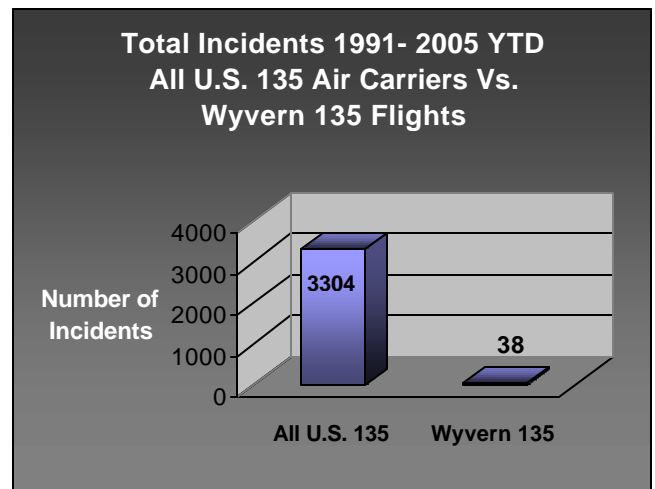

As a global travel leader, we are constantly looking for ways to meet the needs of our clients. The Wyvern & ARG/US Platinum on-site audits are the 'gold standard' of Air Charter Certifications. Having the Wyvern recommendation and ARG/US Platinum rating validates Air Logic's operating methods and processes. We are proud of the fact that we have successfully married major airlines methods of flight standards and safety, with service levels found in flight departments within fortune 100 companies.

In June 2005, Air Logic successfully completed the re-audits by Wyvern and ARG/US.

WYVERN FLIGHTS CLEARLY THE SAFEST

[Wyvern - zero fatalities]

About Air Logic

Air Logic, headquartered in Tampa, is currently providing worldwide air charter, aircraft management and aviation consulting services. Air Logic owns and manages a fleet of state-of-the-art Challenger 604, Beechjet 400A and King Air aircraft.

The mission of Air Logic is to be Florida's premier corporate aviation company with its primary objective of *consistently exceeding customer's expectations*. We are committed to bringing the highest standards of safety and service to the private air carrier, aircraft charter, aircraft management, brokerage and aviation consulting markets.

Air Logic is the leader in aircraft management and air charter businesses in West-Central Florida. We are the largest FAA and DOT Part 135 certified air carrier in the Tampa Bay area. We believe that safety, blended with excellent service is the foundation for a successful air charter business.

Safety is our number one priority. All of our aircraft are maintained under Factory approved programs, which meet or exceed FAA requirements. Our pilots are highly experienced and exceptionally well qualified. We require our crews to be trained to equivalent standards as those maintained by major airlines. Our Captains average 6500 hours of flight time and First Officers average more than 3000 hours of flight time. Our crews are trained at FlightSafety International twice annually. The FAA or its designee also tests our crews every 6 months.

About Wyvern

Wyvern Consulting Ltd., the world's largest provider of Independent Aviation Safety Evaluations, is an acknowledged industry leader in aviation safety standard setting. Wyvern has earned a well-established and respected reputation in the aviation industry for aviation safety focus. This reputation and safety focus has attracted managers of corporate risk, corporate security and corporate flight departments to use Wyvern as an integral part of their due diligence process when they select qualified operators to fulfill their charter needs.

About ARG/US

Aviation Research Group/US is the leader in the field of corporate aviation safety and operational information. Responding to an industry-wide need for objective, non-intrusive, and fact based safety analysis for Part 135 charter operators; ARG/US uses a rating system to help businesses and individuals that use charter companies to evaluate the safety of their operations. ARG/US has earned a well-established and respected reputation in the aviation industry for aviation safety focus. This reputation and safety focus has attracted managers of corporate risk, corporate security and corporate flight departments to use ARG/US as an integral part of their due diligence process when they select qualified operators to fulfill their charter needs.
